Request Description

Short Description : N/A

I request the preliminary investigation into the Animas River pollution incident that occurred on August 6, 2015. This request should be forwarded to the appropriate regional office if such information is not available at HQ. Additionally, I would like the work experience of all EPA personnel who were onsite when the spill occurred. I would like to know how long they have worked for the EPA, how long they have worked in their fields, and any degrees/professional qualifications they hold that are related to their fields.

I realize that the preliminary investigation is probably not available yet, but the background information on the personnel should be available immediately.
